WORKS WITH OR WITHOUT STAND

Keyed Cable Lock with Stand for iPad

The iPad is revolutionizing how we interact with technology, view entertainment and connect with friends and family. It's easy to take anywhere, but it's also a valuable item that you wouldn't want to leave unattended. Now you can, and have more peace of mind, by using CTA Digital's Keyed Cable Lock with Stand for use with all iPads. The silicone padded frame securely holds your iPad and locks together with the 70" steel core security cable allowing you to leave your iPad anywhere that you can safely fasten it to while you step away. When you're ready to take the iPad somewhere else, simply use the included key and release the lock. This is ideal for dormitories, offices, schools and other public areas where you might take your iPad and leave it momentarily. The secure padded frame case also helps protect the iPad from bumps and scratches. It provides a wrist friendly 15° tilt angle for desktop use and can easily be hand held. For additional convenience use the included stand, which provides full 360° rotation for optimal viewing in portrait, landscape or keyboard orientations. The frame can even be threaded with a strap and attached to a headrest for easy car use. So, comfortably enjoy taking your iPad anywhere, worry less about losing it and protect it from thievery or damage by using CTA Digital's Keyed Cable Lock with Stand for iPad.
